Vatsala Sadasivan

Work Speaking

Better operations. More patients treated.

I help biopharma teams move medicines from research into patients’ hands.

Vatsala Sadasivan

240 patients gained a year of treatment

Vatsala advises biopharma teams and speaks about how they work. The bold type and fuchsia from her scarf give this concept the presence of a keynote.

Boston Tenggara’s starting idea is to bring biotech innovation from Boston to Malaysia. Two optical lenses bring Boston and Kuala Lumpur into the same frame.

Biopharma logistics

How medicines move.

Exploring cold-chain technology for biopharma teams in Boston and Malaysia.

Discuss a pilot

This direction draws on the founders' interest in digital learning. Malaysian songket becomes optical fibre to show how biotech knowledge can travel.
